

Keller Babies By Shannon

Keller Babies by Shannon is an affordable in-hospital baby photography service. We capture beautiful portraits of your baby's first moments during your hospital stay. Each new mother is offered a photo session that will capture moments you will treasure for a lifetime.

Things you may ask

1. Each portrait will include a minimum of 5 poses.
2. We encourage the use of your own special blanket, outfit, etc.
3. You will receive these special photos on a CD with copyright in the mail within 3-4 weeks.
4. Your CD allows you to print where and as many photos as you would like.
5. Most photos will be taken midmorning and late afternoon on the first full day of delivery.
6. We welcome parents and siblings to participate in the session.

Helpful Tips

1. Please have your infant fed and dry.
2. If your infant uses a pacifier or bottle please have them close by.
3. Suggestions on what to wear: hospital gown or plain clothing.
4. Clear, unchipped, or no nail polish photos are best. WE love hand shots.

The cost of each session is **\$60**. We accept debit cards, credit cards or cash. This includes CD with copyright. We reserve the right to ask that no one take pictures with cell phone or camera during the session. We also need room to work. Please be aware that we may ask some of your guests to give up time to create your special memories for you.
